Clinton County Distributes COVID-19 Home Test Kits and Masks

January 5, 2022

Clinton County is making available the first shipments of COVID-19 Test kits and KN-95 Masks that have been received from the State of New York for public distribution. The County has received 35,000 KN-95 masks and 3,600 COVID-19 at home self-test kits.

KN-95 masks have been delivered to Chamber of Commerce and the United Way for distribution to the business community for employee or patron use as necessary.

The County is also actively distributing KN-95 masks and at home COVID-19 Self-Test Kits to municipal offices across the County including all Town and Village offices as well as Plattsburgh City Hall for pick up and use by the general public.

These resources are in short supply and of course, given the quantities received to date, may not be available for every individual at this time. Please contact your Town, Village or City office to check on availability tomorrow, Thursday the 6th. As additional resources are procured through follow on shipments of both of these limited resource items Clinton County will continue to share them county-wide.
