### 2022 Community Health Survey- We want to hear from you!

#### Residents asked to complete survey about health issues affecting Clinton County

**Clinton County, February 7, 2022.** The Clinton County Health Department (CCHD) and UVM Health Network-CVPH are conducting the 2022 Community Health Survey. The survey allows residents to share thoughts and opinions about their health experiences and concerns over the past few years.

“The survey is one of first steps in the local community health assessment process” explained Molly Flynn, Principal Public Health Educator in the Division of Health Planning & Promotion at CCHD. “Input will help shape health improvement plans that are being developed as part of the assessment.”

Conducted every three years, this is the third time the health partners have fielded such a survey. The survey is anonymous and takes approximately 5-10 minutes to complete. It is available online ([www.surveymonkey.com/r/CHA2022](http://www.surveymonkey.com/r/CHA2022)) and can be completed on a computer, tablet or phone. Residents can also find the link to the survey on CCHD’s social media pages or by looking for the news release on the Health Department website at [www.clintonhealth.org](http://www.clintonhealth.org). Paper copies of the survey are also available for those without access to the internet. Responses will be collected through the end of March.

Flynn adds, “We want to know what our residents need to be healthy and taking this survey is one of the easiest and quickest ways for residents communicate that to us. We want to hear from as many residents as possible.” Results will be shared back directly to the community this summer by CCHD and will be used to help identify health priorities for the 2022 Community Health Improvement Plan.

#### About the Clinton County Health Department:

The Health Department is an accredited full service department serving the residents of Clinton County. The Health Department’s Mission is to improve and protect the health, well-being and environment of the people of Clinton County.
